THE RECENT BOILER EXPLOSION-THE CORO THE RECENT BOILER EXPLOSION—THE CORONER'S INQUEST—FURTHER RECOVERY OF REMAINS—FUNERALS OF THE VICTIMS.—The search among the ruins at the scene of the late boiler explosion, on Sansom street, was continued throughout the day yesterday, by a small squad of men, who succeeded in finding the remains of Mr. Frederick Shuman. The body was so horribly disfigured that it could be recognized only by a wallet found in the pocket. This is the twentieth body recovered and recognized. Nothing has been done to-day in the way of searching for the remains of those still missing.

Last evening the investigation before the Coroner was commenced at the Pennsylvania Hospital, Mr. Jonkins, the engineer, being the first witness sworn. His testimony corroborated the statement previously made by him to our reporter, and gave some additional facts which throw some light upon the origin of the disaster. The inquest was subsequently con-tinued at the Coroner's office, where it will be resumed this evening, at 8 o'clock. The testimony taken last evening will be found in full

on our third page.
Yesterday afternoon the remains of three of Yesterday afternoon the remains of three of the unfortunate victims were followed to the grave by their sorrowing friends. There was likewise a large turn-out of Odd Fellows, each of the deceased having been members of that order. The names of those buried yesterday were George W. Clark, of the General Warren Lodge; William R. Holloway, of the Pennsylwania Encampment; and William Achuff, of the Star of America Lodge. The families of the above will, of course, receive material assistance from their respective lodges, and we understand that a movement is on foot in the O. der for a general subscription in aid of all the sufferers.

Yesterday a committee of prominent citizens was announced to distribute such sums in aid of the families of the victims as might be forwarded to the Mayor of the city. The following contributions have already been made to this

DEATH OF THE REV DR. HALL, FORMERLY OF DEATH OF THE KEV DR. HALL, FORMERLY OF THIS CITY.—Our readers will be pained to learn of the decease of the Rev. William S. Hall, D. D., who was formerly pastor of the North Baptist Church, and also of the Enon Baptist Church, et this city. Dr. Hail died on the evening of the 8th instant, at his late residence in White Deer Valley, Union county, Pennsylvania, being at the time about fifty-eight years of age. Dr. Hall was well known throughout this State, which has seldom been blessed by the labors of a more current and efficient minister labors of a more earnest and efficient minister of the Gospel. During the recent war he was especially prominent, on account of the hearti-ness with which he entered into every measure which tended to advance the national cause. He did not belong to that over-fastidious class who ignore politics in the pulpit when the safety of the nation and a great moral issue are at state. He also did great service as President of the Twentieth Ward Bounly Fund, and gave two sons to the service of the country, one of them perishing at his post in the Army of the Potomac, during the campaign of 1863.

But One Session a Day.—Yesterday, at the meeting of the Board of School Control, the question of having but one session a day in all our public schools during the hot season occu-pied considerable attention, and was freely discussed. The following resolution was finally

Resolved, That on and after June 18, until the sum mer vacation, one session of four hours' duration (from 8% to 12½ o'clock) be held daily in all the schools of this district.

This is a movement which will no doubt be heartly acquiesced in by two important classes of the community—the scholars, who, freed

of the community—the scholars, who, freed from the drudgery of study during the sweltering afternoons, will return with greater avidity to their books in the morning and the teachers will for a time be relieved of that treadmill occupation which knows no variation from dawn to dark through the long terms. STRAWBERRIES .- This luscious fruit is now

quite plentiful in the market, and has been sold as low as twenty cents a quart. The strawberry vines have been finely developed by the wet spring, and the present warmth of the sun's rays is all that is needed to bring it to full marays is all that is needed to bring it to fall maturity. We were shown this morning some magnificent specimens of the "Agriculturist" variety, which were grown by Messrs, T. S. and E. C. Fletcher, at Delanco, New Jersey. This variety already grow very large, many of the berries being fully seven inches in circumference, and weighing over one ounce each. The attention of these gentlemen heretofore has been directed to the propagation of the plant, but hereafter they will endeavor to increase its size, as well, and hope soon to be able to dispose of the "Agriculturist" berries by dozens, as is now done with pears.

THE PRINCE OF ADVERTISERS.—Not many papers which come to our editorial sacctum that do not contain the advertisement of Helmbold, the great "Buchu man," of New York. Beginning life a poor boy, he has risen to the position of one of the most extensive dealers in drugs and medicines in New York, by his perseverance under the most discouraging circumstances, and the free use of righters, like Westernices. THE PRINCE OF ADVERTISERS .- Not many stances, and the free use of printers ink. We have seen it stated that his expense for advertising for the year 1866 will not fall short of \$150,000. He has the atmost faith in its benefits, or he would not venture such a fortune, which to many, seems like "throwing money to the winds;" but far different with him. A NATIONAL MEDICINE.-One can hardly pick up a newspaper or turn a street corner nowadays that he does not find, staring him in the face, the announcement that Professor So and-so has just discovered a medicine which is a panacea for all the ills that flesh is or may be heir to. These "wonderful" discoveries usually have an existence of a few months, then disappear from public notice. The reason of their sudden extinguishment is apparent. They were humbugs. At the outset all medicinal prepara ions have an equal chance for success, as all are equally unknown; but the chaff is soon winnowed from the grain by the practical test which an unprejudiced public applies to all things. There are but few preparations of medicine which have withstood the impartial judgment of the people for any length of time. One of the few which we have now in mind, and which has been a long time familiar to nearly every household in the land, is the celebrated Hostetter's Stomach Bitters. Their almost universal sale and use, and their emphatic endorsement from all portions of the country, compel the admission that they must be a specific for the allments for which they are recommended. Letters before us attest their efficacy in diseases of the throat, bowels, and liver. In that truly terrible complaint, dyspepsia, they are regarded as a sure cure. In Pittsburg, where these Bitters are manufactured, their sale for home use is immense. This fact alone speaks volumes in their favor .-Extracts from the Muscatine Courier, Iowa, Febru-

FROM WASHINGTON THIS AFTERNOON.

[SPECIAL DESPATCHES TO EVENING TELEGRAPH.] WASHINGTON, June 12.

Masonic.

The Masonic fraternity, at their meetings last night, made elaborate preparations for their visit to Boston.

How Is This? The attempt of the Administration to put General Grant in the attitude of censuring General Sheridan for removing Wells, by pub-lishing a despatch two months old from Grant

to Sheridan, wherein the former then advised the latter to awalt Stanbery's opinion, justly excites severe comment at army headquarters. It need be only be reiterated here, that General Grant has positively telegraphed to General Sheridan that he does not censure him in the slightest for displacing Wells. Naval Matters.

The Naval Academy fleet for the practice of midshipmen is expected to leave Annapolis on its destination sooner than was expected. The midshipmen of the first-class of the Naval School have all passed their examination suc Registration in Virginia.

The Virginia papers show that the white people intend to register in that State as far as they will be allowed. The Surratt Trial.

The Judge sustained the motion of the prosecution, dismissed the panel of jurymen, and ordered a new one. It is a triumph over the Rebel element, that is showing a partisan as well as a religious interest in Surratt's behalf, and which is also headed by a morning newspaper. The new jury panel will be returned tomorrow, to which time the Court adjourned. A Strange Discovery.

During and since the war, Corcoran's build ing, between Thirteenth and Fourteenth streets, was occupied by the Government as a medical museum, where dissections were of frequent occurrence. The building had been used for this purpose until nine months ago, when the museum was removed to Ford's Theatre.

This week circumstances led to the examination of the lot adjoining the first-named pre-mises, when there were discovered a large num-ber of hogsheads which had been sunk in the ground, filled with the remains of human bodies, left there by the students. The hogs-heads were ordered to be removed, and the cavities filled with lime and other powerful disnfectants.' Since the discovery of these deposits, medical

gentlemen attribute the unusual unhealthi-ness and sickness in that vicinity to the pre-sence of these pits of purrefying substances.

Christianity in Japan. Paul Bigley, missionary to Japan, China, India, etc., lately addressed a note to Secretary Seward referring to the ancient, unrepealed edict making Christianity a capital offense in Japan, to which the Acting Assistant Secretary, F. W. Seward, June 4th, replied that the subject has already been brought to the attention of the Japanese Government. the Japanese Government.

Mr. Stout pleaded guity to a charge of the larceny UNITED STATES DISTRICT COURT-Judge Cad-

man stated that he detected the prisoner in the act of taking \$5:00 from the deak in his store, and that he confessed he had at different times stolen money, altogether amounting to \$15:00.

Mr. Stout pleaded guilty to a charge of the larceny of a pair hof patent leather shoes belonging to J. S. Green. He bought a pair of shoes from Mr. Green, and while the gentleman went away a short distance to get some change, he put another pair under his coat and attempted to take them, but without paying for them. But he was easily detected.

Thomas McConnell was charged with assault and battery upon John W. Parker, Parker, a colored man, testified that one day last monts, while he was walking along the wharf in search of work, he was accosted by the defendant and another man, who said he would have to treat them. Rather than have a difficulty he agreed to treat them, and was about to pull out some money when the defendant struck him with a stone. He did not see the defendant make any motions, but he felt certain he was the man who struck the blow.

The defendant stated that as he was going to his work on the day in question, he saw the prosecutor quarrelling with a man. He went towards them, and as he drew near the white man threw a stone, he dodged, and the stone struck the prosecutor. He himself had nothing whatever to do with it.

The jury thought the derendant was not sufficiently identified, and therefore rendered a verdict of not guilty.

Margaret Delaney was charged with assault and

guilty.

Margaret Delaney was charged with assault and battery upon Eliza Gleason. Mrs. Gleason testified that one day while she was doing her household work, the defendant entered her house, and after having applied to her all the beautiful preliminary epithets usually employed to introduce such transactions, she struck her ablow on the forehead with a large stick and then ran. This statement of the circumstances was, of course, denied by the defense. On trial.
